The cultivation of Jamaica ginger has been prosecuted until it promises to become of great value.

LOUISIANA INVESTIGATION.

There seems to be a prospect that the mystery of the Conshatta outrage will be soon explained. Mr. T. W. Abney, W a leading Democrat of that parish, was | put up by the Conservatives as a witness to convince Mr. Hoar's committee that there had been no violence or intimidation [in his part of the State. Mr. Abney read a long, palavering statement, previously prepaired, stating the White R purely on scientific principles -in all cases R League side of the case, and several D times while making explanations of certain passages used the word "we" when speaking of the White League. Mr. Frye, of the Committee took notes and on the cross-examination wound up Mr. Abney in about twenty minutes so effectually that that the witness had convicted himself of being the leader of the gang which murdered Twitchell, Special Dewces and colored Republicans. So Mr. Abney is put under bonds of \$5,000 to appear before the next term of the United States District Court, and warrents have been issued for the arrest of the gang, whose names Abuey has given under oath. It is not often that a witness manages to hoist himself so thoroughly T. P. BEOWN'S ADDITION, TOLEDO. with his own petard as Mr. Abney has done.-[Cleveland Leader.

SPAIN is threatened with an ecclestical LONG TIME, scandal before which the Beecher business pales. M. Caixal, Bishop of DESHRABLE LOCATION, Urgel, is the delinquent. The charge against him is that two years ago he assassinated a young priest, whose mutilated remains were subsequently discovered hidden away in a cellar of the episcopal palace. The autnorities are reported to have exhibited a most culpable lack of energy in following up the charge, and allowed the inculpated prelate to get beyond their jurisdiction, inasmuch as he is with the army of Don Carlos. Murder is not the only crime which has been committed. The dis- CROCKERY, CHINA, closures at the trial, should it ever take place, are expected to reveal frightful

Or the twelve Conservative witnesses who testified on Friday, five admitted that they thought Kellogg was fairly elected. One of the others, a Conservative negro, testified that he joined the Democrats because he did not get the nomination for the Legislature, and admitted that in 1872 his parish ought to have given 1,500 or 1,600 majority for Grant and Kellog, but the returns were so manipulated that they got only 128 votes.
